

# 3-D TANK

## ASSEMBLY INSTRUCTIONS

Time to Complete: Approximately 30 minutes    Level: Medium

### GETTING STARTED

#### Materials:

- Metal-edged ruler
- Butter knife
- Scissors or X-ACTO knife
- Cutting mat (optional)
- Multipurpose glue
- One brad
- Pencil (optional)
- Adobe Reader software

- 1** Using scissors or an X-ACTO knife and cutting mat, cut along solid lines of all tank pieces, including the small slit in the middle of the tank body and the holes for the gun and brad where indicated.

- 2** Score all the pieces: Using a ruler as a guide, run the back side of a butter knife firmly along all the dotted and dashed lines.

### ASSEMBLE YOUR 3-D TANK

- 3** Bend down two segments of the turret until the tab on one is fully overlapped by the other. Apply glue and hold together until stable.

- 4** Repeat step three for the other seven tabs to form the top of the turret.

- 5** To create the block that will support the turret, apply glue to the tab, fold over, and glue to the other side.

- 6** Apply glue to top of block and attach inside turret. Be sure one of the open sides is facing the opening for the gun.

- 7** Apply glue to the two tabs on the right front side of the tank.

- 8** Bend the tread around and attach it to the underside of the tank's top.

## ASSEMBLE YOUR 3-D TANK (continued)

- 9** Repeat steps seven and eight for the right rear.

- 10** Repeat steps seven, eight, and nine for the left side of the tank. For now, do not glue shut the underside of the tank.

- 11** Using a brad, attach the turret to the top of the tank.

- 12** Now apply glue to the tab on the underside of the tank and close the bottom.

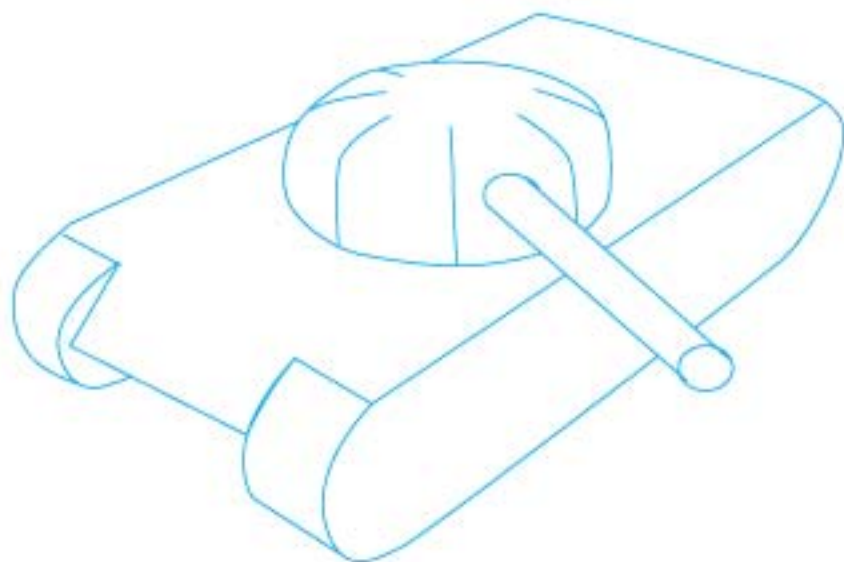

- 13** Fold shut the front and back sections and glue in place.

- 14** To form the gun barrel, roll the paper into a tube and glue in place. It may help to roll the paper tightly around a pencil first.

- 15** Insert the barrel into the turret and your tank is complete!

MONSTERS VS ALIENS: 3-D TANK
