

Origami Fox

This origami fox is a very simple model to fold and perfect for beginners. Give him his sly expression with a marker pen and add him to your origami animal collection.

1. With the colored side down on the table, fold your square in half diagonally.

2. Fold in half again.

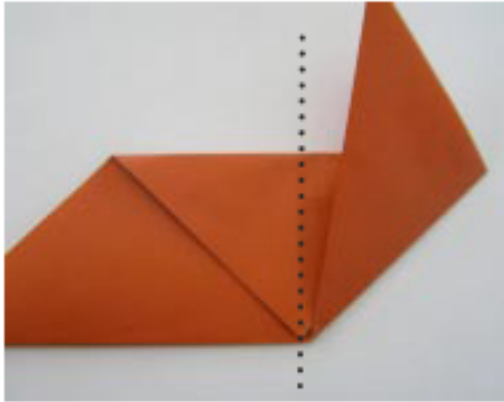

3. Open up the last fold. With the long side of the triangle on the bottom, fold down the top point until it reaches the bottom edge.

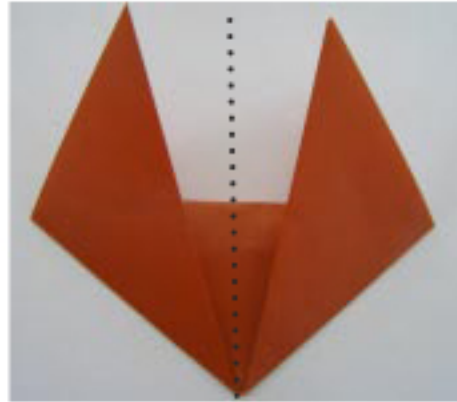

4. Your model should look like this.

Origami Fox - Page 2

5. Take the bottom right corner and fold it up to form one of the ears. Look at the photo above to see how it should be placed (the dotted line marks the centre of the model)

6. Fold the bottom left corner up to form the other ear. Try to match the first ear!

7. Flip the model over ...

8. and add your fox's face!
